INC. VILLAGE OF VALLEY STREAM**

Whereas, the Village of Valley Stream recognizes the importance of protecting and preserving our natural resources and work to make the world a better place by adopting conscientious living habits that will improve our daily lives and bring about a cleaner, safer and healthier environment; and

Whereas, although there has been a significant increase in the quality of recycling in Valley Stream today, we must continue to focus on other initiatives such as waste reduction, composting, the reuse of products and materials, and purchasing recycled products and packaging; and

Whereas, by encouraging businesses, Village departments, nonprofit organizations, schools and individuals to celebrate Valley Stream's America Recycles Day, we can further promote recycling as an environmentally efficient and, economically smart way of life; and

Whereas, local community leaders can help encourage recycling by informing citizens about the importance of buying recycled products; they can also help foster greater awareness of the need to expand collection programs for recyclable goods and materials by promoting the benefits of recycling investments for businesses; and

Whereas, it is important that all Valley Stream residents become involved in recycling activities and learn more about the many recycled products and packaging available to them as consumers; it is also fitting for Valley Stream to celebrate America Recycles Day to help ensure a safe and healthy environment and an improved quality of life for present and future generations;
